

**Please see the enclosed Exhibitor Registration form for Crop Growing Expo 2025.**

You will note a change in location, as well as several additional improvements.

Please note also that the days of the Expo will be Wednesday and Thursday this year instead of Thursday and Friday.

The **new location**, Spooky Nook Complex will provide more space for exhibitors, more comfortable meeting rooms, easier parking, and shorter lines at meal time.

Additionally, we will offer a new feature, indoor space to display large equipment. You will notice on the floor plan there are a number of 15' x 15' spaces available. To qualify to purchase one of these spots, an exhibitor must first purchase a regular 10' x 10' space. For those exhibitors that desire extra space to display more equipment, they can purchase a 15' x 15' across the alley from their 10' x 10' spot. This will enable them to monitor their regular display booth while utilizing the larger area for bigger equipment and visit with prospective customers there as well. This area includes those booths in the 400 alley.

Another exciting new feature will be more presentations, workshops and vendors pertaining to cut flowers. Christ Stoltzfus, Marcus King, Manny King and Joseph Stoltzfus have been very involved in educating and supporting the cut flower industry, and they have now joined forces with the Crop Growing Expo.

Information and documents about The Crop Growing Expo can now be accessed at <https://thefamilyfarmresource.com/crop-growing-expo/>.

**Things to know about the Exhibitor Registration form:**

1. Fill it out completely, both front and back.
2. Please print legibly.
3. The Waiver of Liability must be signed and dated.
